

Hello, Class of 2024!

Welcome to UVA! Although it looks a little different this year, I still hope this is a place you will soon call home. There is so much to look forward to, like meeting new friends and exploring cville with them! There are also so many organizations to get involved in on grounds and ways to make UVA your own. Advice I would give to myself as a first year: don't be afraid to try something new, because you are going to learn so much about yourself in the next few years. Good luck with this semester and have so much fun!

Sincerely,
A Friend from the Fourth Year Class
