

Hello, Class of 2024!

Welcome to UVA! – Despite the current pandemic and its impact, I hope you still feel welcome here and are optimistic about your time at the University, whether you are attending virtually or in-person. We hope you remember that you really do belong at UVA, and that your fellow Hoos are very excited to have you join our community!

Even though this year will look different from previous ones, there are still so many amazing organizations and clubs to explore. I hope you consider trying some new classes, clubs or hobbies and pushing yourself to meet new people, even virtually. Even though it can be hard to feel a sense of community with everything online, there are people here for you who are excited to get to know you. Some of the best memories I have are with the clubs I joined on a whim and the people I met unexpectedly. There are so many different types of clubs for every interest and I know that you will find your place here at UVA soon.

Please stay safe and reach out to the people around you! We are all here for you and hope to support your journey here at UVA.

Wishing you a great start to an amazing 4 years!

Sincerely,
Your Fourth Year Friend,
Class of 2021
