

Hey Class 2024!

Welcome to UVA, especially during this very interesting time. I know it's difficult coming to a whole new school in a new city and being expected to not go out and explore. However, everyone needs to do an amazing job social distancing so we can stay here and enjoy this freedom.

This university definitely has its pros and cons, but once you find your place, it can be amazing. People you meet here become your friends for a long time. This place has so much history, good and bad, and it's important to acknowledge that. Fight for what you believe in and find your forever friends here.

While this time is difficult, we all believe in y'all to make it. Perseverance will be everyone's savior during this pandemic.

Warm regards,

Class of 2021
